Responses from SEND Questionnaire

Summary of additional comments from parents:

'I feel that my child is completely supported in school. This is not an easy task as he needs support in a number of different areas. I appreciate the school's proactive approach so that any potential challenges are planned for, therefore avoiding the challenge becoming a problem.'

'The school's inclusive attitude is an integral part of how it operates. This is evident not only in the way that staff treat my child but also in the other children's interactions with him. I have been so pleased with the opportunities he has had to be part of the choir, school journey and the learning experiences in the classroom. Thank you to everyone involved with supporting him.'

St Mary's Church of England Primary School

'I'm really pleased about the good relationship between the Local Authority advisory teacher and the inclusion leader; I feel this has been really beneficial to developing support for my child.... we'd like to thank the staff for making sure that our child is well cared for and that her needs are considered. She is really enjoying school.'

What Next?

- I'd like to urge parents and carers to keep an eye on the SEND sections of the school website. They are often being updated with useful links to further guidance and support across a range of special educational needs and disabilities.
- Parents who raised specific questions regarding SEND in the survey will be written to/invited to discuss their question with the relevant members of staff.

Thank you very much to all the parents who responded to the questionnaire and for helping to shape further strategic developments of the leadership of SEND at St. Mary's.
